Environmental Protection Agency

- (3) Annual production of titanium dioxide (tons).
- (4) Annual production capacity of titanium dioxide (tons).
- (5) Annual production of carbon-containing waste (tons), if applicable.
- (b) If a CEMS is not used to measure CO_2 emissions, then you must report the information listed in this paragraph (b):
- (1) Identification number of each process line.
- (2) Annual CO₂ emissions from each chloride process line (metric tons/year).
- (3) Annual consumption of calcined petroleum coke for each process line (tons).
- (4) Annual production of titanium dioxide for each process line (tons).
- (5) Annual production capacity of titanium dioxide for each process line (tons).
- (6) Calcined petroleum coke consumption for each process line for each month (tons).
- (7) Annual production of carbon-containing waste for each process line (tons), if applicable.
- (8) Monthly production of titanium dioxide for each process line (tons).
- (9) Monthly carbon content factor of petroleum coke (percent by weight expressed as a decimal fraction).
- (10) Whether monthly carbon content of the petroleum coke is based on reports from the supplier or through self measurement using applicable ASTM standard methods.
- (11) Carbon content for carbon-containing waste for each process line (percent by weight expressed as a decimal fraction).
- (12) If carbon content of petroleum coke is based on self measurement, the ASTM standard methods used.
- (13) Sampling analysis results of carbon content of petroleum coke as determined for QA/QC of supplier data under §98.314(d) (percent by weight expressed as a decimal fraction).
- (14) Number of separate chloride process lines located at the facility.
- (15) The number of times in the reporting year that missing data procedures were followed to measure the carbon contents of petroleum coke (number of months); petroleum coke consumption (number of months); car-

bon-containing waste generated (number of months); and carbon contents of the carbon-containing waste (number of times during year).

[74 FR 56374, Oct. 30, 2009, as amended at 75 FR 66469, Oct. 28, 2010]

§ 98.317 Records that must be retained.

In addition to the records required by §98.3(g), you must retain the records specified in paragraphs (a) and (b) of this section for each titanium dioxide production facility.

- (a) If a CEMS is used to measure CO_2 emissions, then you must retain under this subpart required for the Tier 4 Calculation Methodology in §98.37 and the information listed in this paragraph (a):
- (1) Records of all calcined petroleum coke purchases.
- (2) Annual operating hours for each titanium dioxide process line.
- (b) If a CEMS is not used to measure CO_2 emissions, then you must retain records for the information listed in this paraghraph:
- (1) Records of all calcined petroleum coke purchases (tons).
- (2) Records of all analyses and calculations conducted for all reported data as listed in §98.316(b).
- (3) Sampling analysis results for carbon content of consumed calcined petroleum coke (percent by weight expressed as a decimal fraction).
- (4) Sampling analysis results for the carbon content of carbon containing waste (percent by weight expressed as a decimal fraction), if applicable.
- (5) Monthly production of carbon-containing waste (tons).
- (6) You must document the procedures used to ensure the accuracy of the monthly petroleum coke consumption and quantity of carbon-containing waste measurement including, but not limited to, calibration of weighing equipment and other measurement devices. The estimated accuracy of measurements made with these devices must also be recorded, and the technical basis for these estimates must be provided.
- (7) Annual operating hours for each titanium dioxide process line (hours).
